Jiayin (DJ) **Dong**

Flatiron Research Fellow
162 5th Ave, New York, NY 10010
jdong@flatironinstitute.org | 0000-0002-3610-6953 | jiayindong.github.io | jiayindong | ADS library

Current Position

Flatiron Research Fellow — New York, NY
Center for Computational Astrophysics, Flatiron Institute – Simons Foundation — July 2022–Present

Education

Pennsylvania State University — State College, PA
Ph.D. in Astronomy & Astrophysics; Ph.D. minor in Computational Science — August 2022
M.S. in Astronomy & Astrophysics — April 2019

University of Illinois at Urbana-Champaign — Champaign, IL
B.S. in Engineering Physics and Astronomy (dual degree) with honors — May 2017

Fellowships & Awards

2022–25 **Flatiron Research Fellowship** Postdoctoral fellowship at CCA, Flatiron Institute
2022 **Alumni Association Dissertation Award** The most prestigious recognition to Penn State doctorate students
2021 **Raynor L. Duncombe Student Research Prize** Awarded by AAS Division on Dynamical Astronomy
2018–20 **Zaccheus Daniel Fellowship (x3)** Penn State travel grants for graduate student research
2020 **CCA Pre-Doctoral Fellowship** Selected as a predoc fellow at CCA, Flatiron Institute in Spring 2020
2019 **Student Poster Competition Winner** at New Horizons in Planetary Systems Conference
2018 **Sagan Workshop Travel Award** Travel support for 2018 Sagan Exoplanet Summer Workshop
2017 **Homer F. Braddock Fellowship** University scholarship awarded to selected 1st-year graduate students
2014–17 **Edmund J. James Scholar** Undergraduate honor program at the University of Illinois

Awarded Telescope Time

As Principal Investigator

WIYN-3.5m / NEID via the NASA-NSF Exoplanet Observational Research Program (NN-EXPLORE)
- 2023A, #954402, Priority 0, **17.8 hours**
- 2023A (co-PI), #652300, Priority 0 and 1, **24.4 hours**
- 2022A, #413894, Priority 1 and 2, **16.7 hours** (**NASA WIYN Data Award**)
- 2021B, #0277, Priority 1 and 2, **5 hours**

CT-1.5m / CHIRON via NN-EXPLORE
- 2022A, #308148, **50 hours**
- 2021A, #0147, **60 hours**
- 2020B, #0189, **20 hours**

MINERVA-A / MINERVA via NN-EXPLORE
- 2022A, #308148, **20 hours**
- 2021A, #0147, **40 hours**

LCOGT-1m via NOIRLab
- 2021A, #0147, **50 hours**
- 2020B, #0189, **30 hours**

WIYN-3.5m / NEID via the Penn State TAC

2022B, #836442, Priority 3 and 4, **4.4 hours**
2021B, #0448, Priority 2, **10.5 hours**
2021A, #0405, Priority 1 and 2, **9.6 hours**
2021A, #0406, Priority 2, **4 hours**

As Co-Investigator on VLT-8m / ESPRESSO, ESO-3.6m / HARPS, Magellan-6.5m / MIKE, Magellan-6.5m / PSF, WIYN-3.5m / NEID, WIYN-3.5m / NESSI, CHEOPS

Invited Talks/Seminars

May 2023 **MIT TESS Science Talks** "Five Years into TESS: A Comprehensive View of the Origins of Close-In Giant Planets" Boston, MA

Feb. 2023 **Princeton Exoplanet Seminar** "Understanding Close-in Planet Formation From Stellar Obliquities" Princeton, NJ

Oct. 2022 **Yale Exoplanets and Stars Seminar** "Formation of Close-in Giant Planets: Where and How?" New Haven, Connecticut

Feb. 2022 **Tsinghua Planet Group Meeting** "Origins of Warm Jupiters" Beijing, China

Oct. 2021 **Princeton Exoplanet Seminar** "Tracing Dynamical Evolution of Planetary Systems" Princeton, NJ

Oct. 2021 **Caltech Planetary Science Seminar** "Tracing Dynamical Evolution of Planetary Systems" Pasadena, CA

Oct. 2021 **Berkeley Center for Integrative Planetary Science Seminar** "Tracing Dynamical Evolution of Planetary Systems" Berkeley, CA (Virtual)

Oct. 2021 **Carnegie EPL Astronomy Seminar** "Tracing Dynamical Evolution of Planetary Systems" Washington, D.C. (Virtual)

Sep. 2021 **CfA Seminar** "Tracing Dynamical History of TESS Warm Jupiters" Boston, MA (Virtual)

Jan. 2020 **Tsinghua Planet Group Meeting** "Debris Disks in Multi-Planet Systems+TESS Warm Jupiters" Beijing, China

Contributed Conference Talks

July 2023 **Other Worlds Laboratory Summer Program** "Hot Jupiters: Dynamical Imprints Meet Atmospheric Mysteries" Santa Cruz, CA

Oct. 2022 **TESS Science Meeting 29** "Using the NEID spectrograph to confirm the planetary nature of TOI-1859b via the Rossiter-McLaughlin effect" Boston, MA

June 2022 **The 240th AAS Meeting** "Tracing Dynamical Evolution of Planetary Systems" Pasadena, CA (**Dissertation talk**)

April 2022 **The 53rd DDA Meeting** "Two Case Studies of Warm Jupiters Suggesting Different Origins" New York, NY

May 2021 **The 52nd DDA Meeting** "Boundary Layer Circumplanetary Accretion: How Fast Could an Unmagnetized Planet Spin Up Through Its Disk?" (Virtual, **Duncombe Prize Winner**)

Jan. 2021 **TESS Science Meeting 24** "Warm Jupiters in Year 1 TESS Full-Frame Images: A Catalog and Observed Eccentricity Distribution" Boston, MA (Virtual)

Nov. 2020 **Exoplanet Demographics I** "The Eccentricity Distribution and Occurrence Rates of Warm, Large Exoplanets" Pasadena, CA (Virtual)

Aug. 2020 **The 51st DDA Meeting** "Unraveling Warm, Large Exoplanet (WaLE) Origins From TESS Observations" Ithaca, NY (Virtual)

July 2020 **Exoplanets III** "A Catalog of Warm, Large Exoplanet (WaLE) candidates discovered in TESS Full Frame Images" Heidelberg, Germany (Virtual)

June 2019 **Emerging Researchers in Exoplanet Science V** "Probing Young Planetary Systems from Their Debris Disks: Are Our Inferences Compromised by Unseen Planets?" Ithaca, NY

June 2018 **Emerging Researchers in Exoplanet Science IV** "Investigating Young Planetary Systems Through Their Debris Disks" State College, PA

Seminars

Feb. 2023 **CCA Thursday Lunch Talk** "Close-in Giant Planets: Where, When, and How Do They Form?" New York, NY

June 2020 **CCA Pre-Doctoral Symposium** "Angular Momentum Transport in Circumplanetary Disks: How Much Could an Unmagnetized Planet Spin up Through Its Disk?" New York, NY (Virtual)

Nov. 2019 **Penn State Astronomy Lunch Talk** "Detection and Characterization of Warm Jupiters in TESS Full-Frame Images" State College, PA

Jan. 2019 **Penn State Astronomy Lunch Talk** "Probing Young Planetary Systems from Their Debris Disks: Are We Messed up by Unseen Planets?" State College, PA

Sep. 2017 **Penn State Astronomy Lunch Talk** "An ALMA Continuum Survey of the Protoplanetary Disks in the ρ-Ophiuchus Molecular Cloud" State College, PA

Contributed Conference Posters

June 2023 **Gordon Research Conference** "Stellar Obliquity Distribution of Exoplanetary Systems" South Hadley, MA

May 2022 **Exoplanets IV** "Two Case Studies of Warm Jupiters Suggesting Different Origins" Las Vegas, NV

Aug. 2021 **TESS Science Conference II** "The Eccentricity Distribution, Occurrence Rates, and Companions of TESS Warm Jupiters" Cambridge, MA (Virtual)

May 2021 **Emerging Researchers in Exoplanet Science VI** "In Situ versus Disk Migration Origins of Warm Jupiters: Prediction on Nearby Companions" (Virtual)

May 2021 **The 52nd DDA Meeting** "In Situ versus Disk Migration Origins of Warm Jupiters: Prediction on Nearby Companions" (Virtual)

Aug. 2019 **Extreme Solar Systems IV** "Probing Young Planetary Systems from Their Debris Disks: Are Our Inferences Compromised by Unseen Planets?" Reykjavik, Iceland

July 2019 **TESS Science Conference I** "Detection and Characterization of TESS Warm Jupiters" Cambridge, MA

May 2019 **New Horizons in Planetary Systems** "Probing Young Planetary Systems from Their Debris Disks: Are Our Inferences Compromised by Unseen Planets?" Victoria, BC **(Poster Prize Winner)**

July 2018 **Sagan Exoplanet Summer Workshop** "Investigating Young Planetary Systems Through Their Debris Disks" Pasadena, CA

Apr. 2016 **University of Illinois Image of Research** "Substructures of Protoplanetary Disks Revealed with ALMA Radio Observations" Champaign, IL

Teaching Experience

Fluid Dynamics Summer School Lecturer New York, NY

Flatiron Computational Fluid Dynamics for Astrophysics Summer School 2023

- Gave a lecture about the application of grid-based code Athena++ in planet formation

LSSTC DSFP Visiting Lecturer Chicago, IL

LSSTC Data Science Fellowship Program 2022

- Gave lectures on **Bayesian inference**, **sampling methods**, and **PyMC applications** to fellow graduate students in the Large Synoptic Survey Telescope Corporation (LSSTC) Data Science Fellowship Program (DSFP).

Sagan Workshop Hands-on Session Helper Virtual
Sagan Exoplanet Summer Workshop 2021

- Led the hands-on session on circumstellar disk modeling using RADMC-3D (written by Faramaz et al.) in Zoom break-out rooms
- Facilitated students to complete coding exercises

Graduate Teaching Assistant State College, PA
Elementary Astronomy; Fundamental of Planetary Science and Astronomy 2017, 18

- TA responsibilities including grading assignments, offering office hours, and proctoring exams
- Two guest lectures to roughly 150 students on **"The Solar System Formation"**
- One guest lecture to 5 students on **"Elementary Astronomy Lab"**

Grader and Observation Assistant Champaign, IL
Introduction to Astrophysics 2016, 17

- Graded homework and exams for sophomore undergraduate students in Astronomy major
- Set up telescopes, monitored telescopes for safe use by students, and discussed celestial objects being observed during the evening and solar observing sessions

Mentoring

Graduate students

2022–23 **Kyle Hixenbaugh**, Indiana University '23, "Stellar obliquity of TOI-5143", co-mentored with Prof. Songhu Wang

Undergraduate students

2021–22 **Claire DiPerna**, Penn State '24, "Dynamics of the resonant-chain system", co-mentored with Prof. Dawson
2021–22 **Jonathon Hope**, Penn State '24, "Migration of multiple giant planets", co-mentored with Prof. Dawson

DEI & Professional Activities

Organizer of the Emerging Researchers in Exoplanet Science (ERES) Symposium

2023 **Consultant for the 8th ERES Symposium (@Yale)** Provided expertise and guidance for the successful hosting of the ERES Symposium at Yale, drawing over 100+ in-person participants. This event contributed to the continued growth and development of emerging researchers in exoplanet science.

2022 **Chair of Organizing Committee for the 7th ERES Symposium (@Penn State)** Led the organization of the ERES Symposium at Penn State, securing **$100,000** in meeting funds from the Heising-Simons Foundation. The event brought together over 80 in-person participants, creating a platform for knowledge exchange and networking among junior researchers in the field of exoplanet science.

2021 **Organizing Committee Member for the 6th ERES Symposium (@Princeton)** Organized discussion panels focusing on career development and public engagement in astronomy. These panels served as a valuable resource for attendees, providing insights into career paths and ways to engage with the broader public.

2018 **Organizing Committee Member for the 4th ERES Symposium (@Penn State)** Involved in abstract selection and conference scheduling. Chaired the Planet Formation & Evolution session. Organized excursions, enhancing the overall experience of the conference participants.

Additional activities

2023– **Journal Referee** for the American Astronomical Society (AAS) journals
2023 **Review Panelist** served on the TESS General Investigator (GI) program
2022, 17–19 **Featured Speaker; Exploring Exoplanets Demonstrator; The Guardian of Kid Prizes** at AstroFest (4-night outreach, 2500+ public visitors) & Astronight (1-night outreach, 500+ students)
2022 **Astronomy on Tap Speaker** Live coding Solar System dynamical interactions using N-body integrators

2020 **Panelist** on the Graduate School Information Session for Penn State undergraduate students

2020 **Moderator** for Exoplanets III; 950+ online participants; Coordinated with Transits 1 & 2 sessions

Fall 2019 **CEHW Journal Club Organizer** Organized weekly Astro-ph.EP group discussion for the Center for Exoplanets and Habitable Worlds (CEHW)

2019 **Executive Secretary** of NASA XRP Review Panel

Media & Press Release

2023 **"New 'warm Jupiter' exoplanet has a weird orbit and another planet may be to blame"** Press release of the discovery of TOI-1859b by the **Space.com; phys.org** (**Dong**, Wang, Rice+23, ApJL)

2023 **"Hot Days and Cloudy Nights on a 'Heavy Metal' Exoplanet"** Press release of the JWST phase curve of WASP-121b by the **AAS Nova** (Mikal-Evans, Sing, **Dong**+23, ApJL)

2021 **"Worlds Away"** Featured article on circumplanetary accretion by the **Simons Foundation Annual Report** (**Dong**, Jiang, & Armitage 21, ApJ)

2021 **"Newly discovered gas giant moving closer to its star"** Press release of the discovery of TOI-3362b by the **ABC Southern Queensland; MINERVA-Australis Press; Eberly College Science News** (**Dong**, Huang, Zhou+21, ApJL)

2021 **AAS Journal Author Series** Interviewed by AAS Editor Frank Timmes about the TESS Warm Jupiter catalog and statistics (**Dong**, Huang, Dawson+21, ApJS)

2020 **"Detail in the Debris"** Featured article on debris disk modeling by the **Eberly College Science Journal** (**Dong**, Dawson, Shannon+20, ApJ)
